I suggest you download 4oD, which is a program run by Channel 4. Then download a program called 'Coming Out To Class'. Its all around coming out at school, and it mentions this website:)

+If your worried about coming out, just do it. Your being yourself.

If you want any help or anything feel free to email me:)

I was actually inspired to come out to my parents after watching the first episode of Gay Prom on 4oD, part of the same gay youth season as Coming Out to Class that Channel 4 was running at the time. Channel Four are good like that.
